Be advised that performance figures are merely an estimate of what you can expect based on our factory testing program. The above listed speeds are verified by GPS with one test driver and less than forty (40) gallons of fuel. Boat speeds, fuel mileage and range can vary depending on weight, fuel load, number of passengers, air temperature, altitude, humidity, barometric pressure, water conditions, wind, engine tuning, horsepower (HP) variance from engine to engine, propellers, canvas and numerous other factors beyond our control. Cruising range calculated at 90% tank capacity. Fountain Powerboats reserves the right to make changes on standard and optional equipment at any time without prior notice. Useable fuel in a gas tank may be slightly less than the advertised fuel capacity.

*Boat weights can vary depending on optional equipment.
